

WE USE CONDOMS

Note- These models are actors only

Use a new condom every time you have casual sex, to ensure you are protected against HIV/AIDS and other sexually transmitted diseases.

Some people don't know they are infected, and can pass them on without realizing. Get free condoms from the dechong boxes at your BHU, hospital and other outlets, or buy at medicine shops.

Remember - Use Condoms. Always.

Designed by: ICB, Oct. 2006, & Produced by: PMT/World Bank, Ministry of Health.
